United Nations, 2023

It is also the location of Europe's largest purpose-designed business district.

Launch your Parisian future in

Art and Design

Business

with personalised support at OnCampus Paris. Connected to top universities across Europe

As the first pathway provider in France, our programs assist students in accessing university degrees in Europe, offering several benefits for their educational journey.

Why Pathway?

01

Providing students with a solid **academic foundation** for university success.

02

Developing **essential study skills** such as critical thinking, research, and analysis.

03

Increasing the chances of being **accepted** into a desired university programme.

04

Creating a pathway for students to explore **various subjects** and interests when uncertain about their career choices.

Pathway explained

They are courses designed specifically for international students to help them attain the right level of qualifications and skills they need to succeed at degree level at French and other European universities.

Typically available as

- an intensive two or three semester programme of academic subjects, study skills and English language preparation.

The pathway programmes at OnCampus offer a range of proven and practical benefits for international students.

The following slides highlight 7 of them;

01

Designed for International students

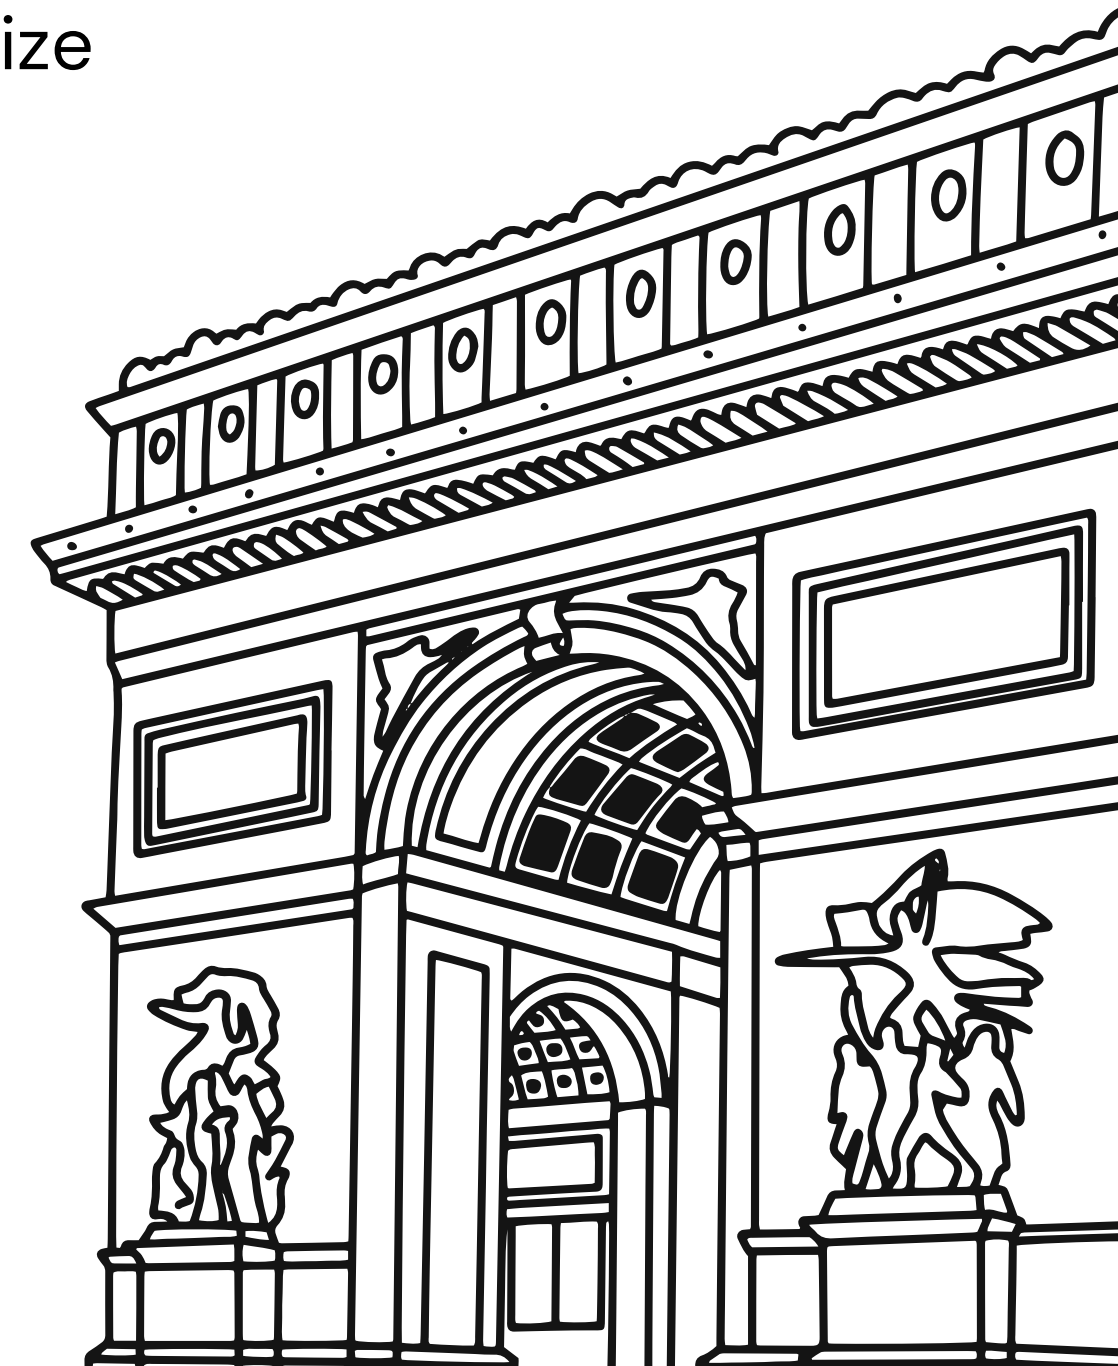

These courses are tailored for global students to ensure they are academically prepared and personally confident for success in undergraduate programs at French and European universities.

02

Fills any gaps in knowledge between high school and university

Education standards vary globally in teaching methods, study hours, and qualifications. OnCampus courses aim to standardize these differences and help all students reach the same level.

03

Academic classes combined with English language

For many international students, language poses the biggest challenge when studying abroad. Even with strong academic records, those not accustomed to daily English might struggle in courses taught to native speakers. OnCampus courses offer focused training in academic English to prepare students for their degree studies.

04

Specialise in your chosen field

On a Foundation, International Year 1 or International Pre-Master's you can tailor your course to suit the degree programme you wish to study for in future. For example, OnCampus Paris offers two distinct pathways at Foundation – Business or Art & Design. Each involve studying core modules common to each route, plus a set of subject-specific modules that are carefully designed to focus on the academic areas most useful to your chosen degree.

Art and Design

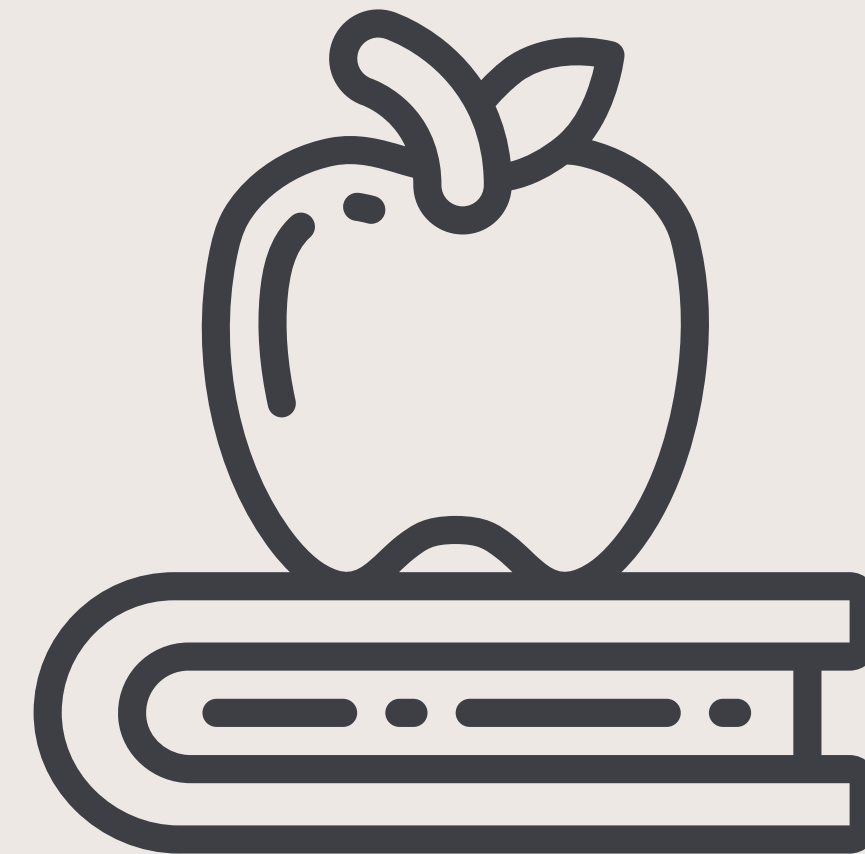

Business

05

Get used to university-style teaching

As a graduate of one of these courses you'll have an advantage over students entering higher education straight from school. They are taught using university-style teaching, often on-campus, with lectures, tutorials and seminar-style classes. This all helps prepare you better for your future university studies.

06

Time to adjust

Arriving at your study location two to three years before starting your degree allows time to adjust to daily life, make friends, and experience cultural differences. This preparation helps you connect with fellow students sharing similar feelings, providing a solid foundation for your undergraduate course.

06

A guaranteed university place

Once you successfully complete your course and achieve the required grades and progression criteria, you'll be guaranteed a conditional offer into the first year of your chosen undergraduate or postgraduate degree at your chosen university.

Progression partners

France's business schools (or écoles de commerce) rank among the global elite and with Paris home to Europe's largest purpose-built business district many of the continent's largest companies chose to base headquarters there

Programmes offered

International Foundation Programme (IFP)

This programme guarantees direct entry to Year 1 of business or art and design undergraduate degrees at partner universities.

International Year One (IY1)

This programme offers students the opportunity to progress to year 2 of a range of business or fashion management degrees.

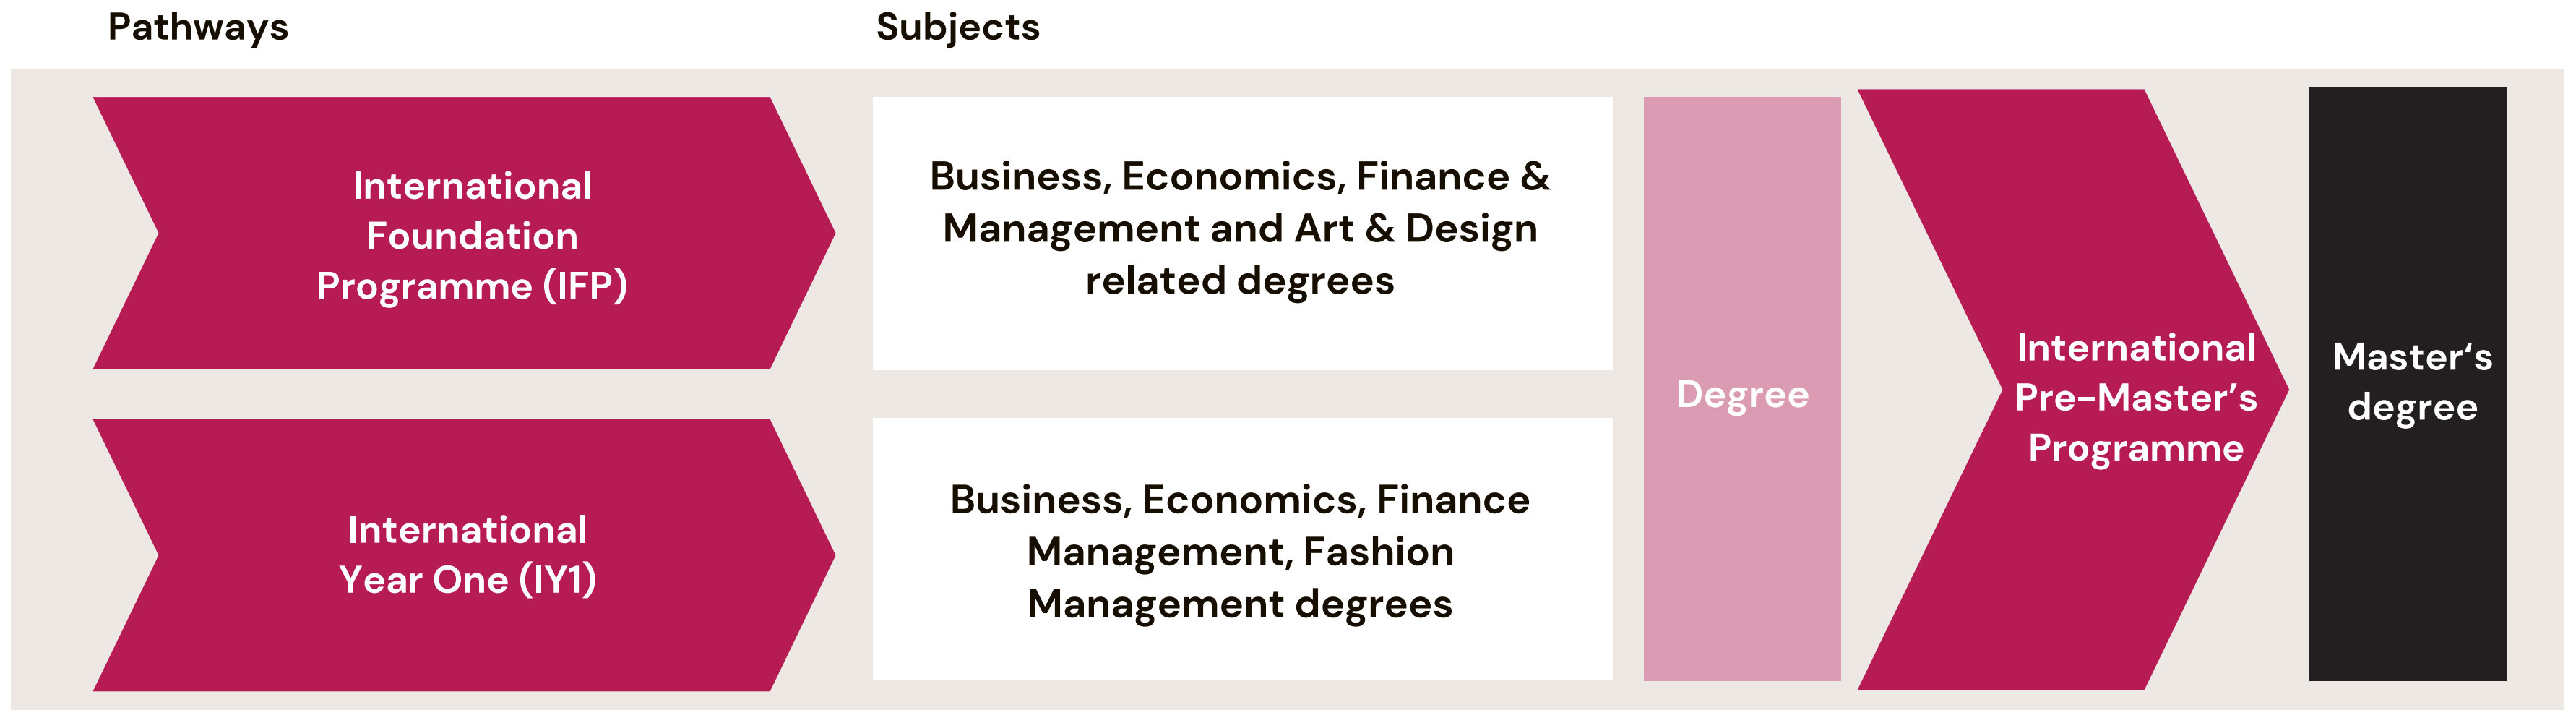

International Pre-Master's Programme (IPMP)

This programme guarantees progression to various business or art and design Master's degrees at partner universities.

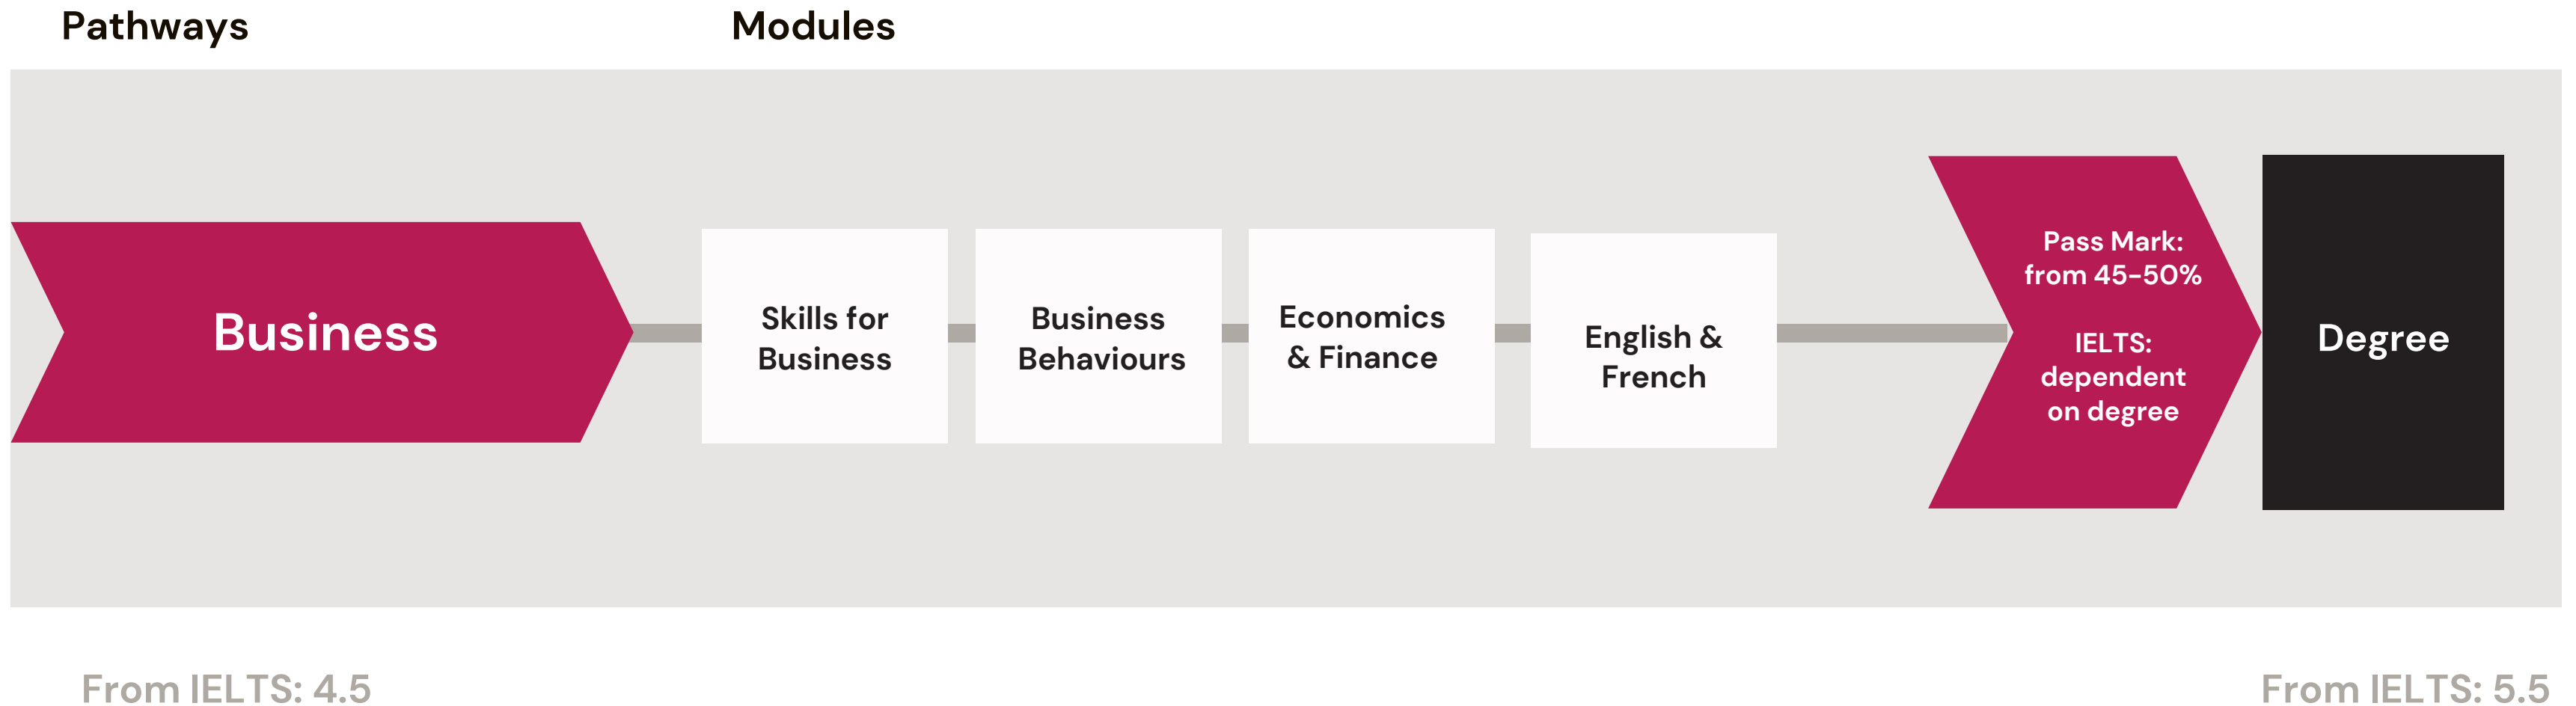

How it will it work?

IFP, IY1 & IPMP

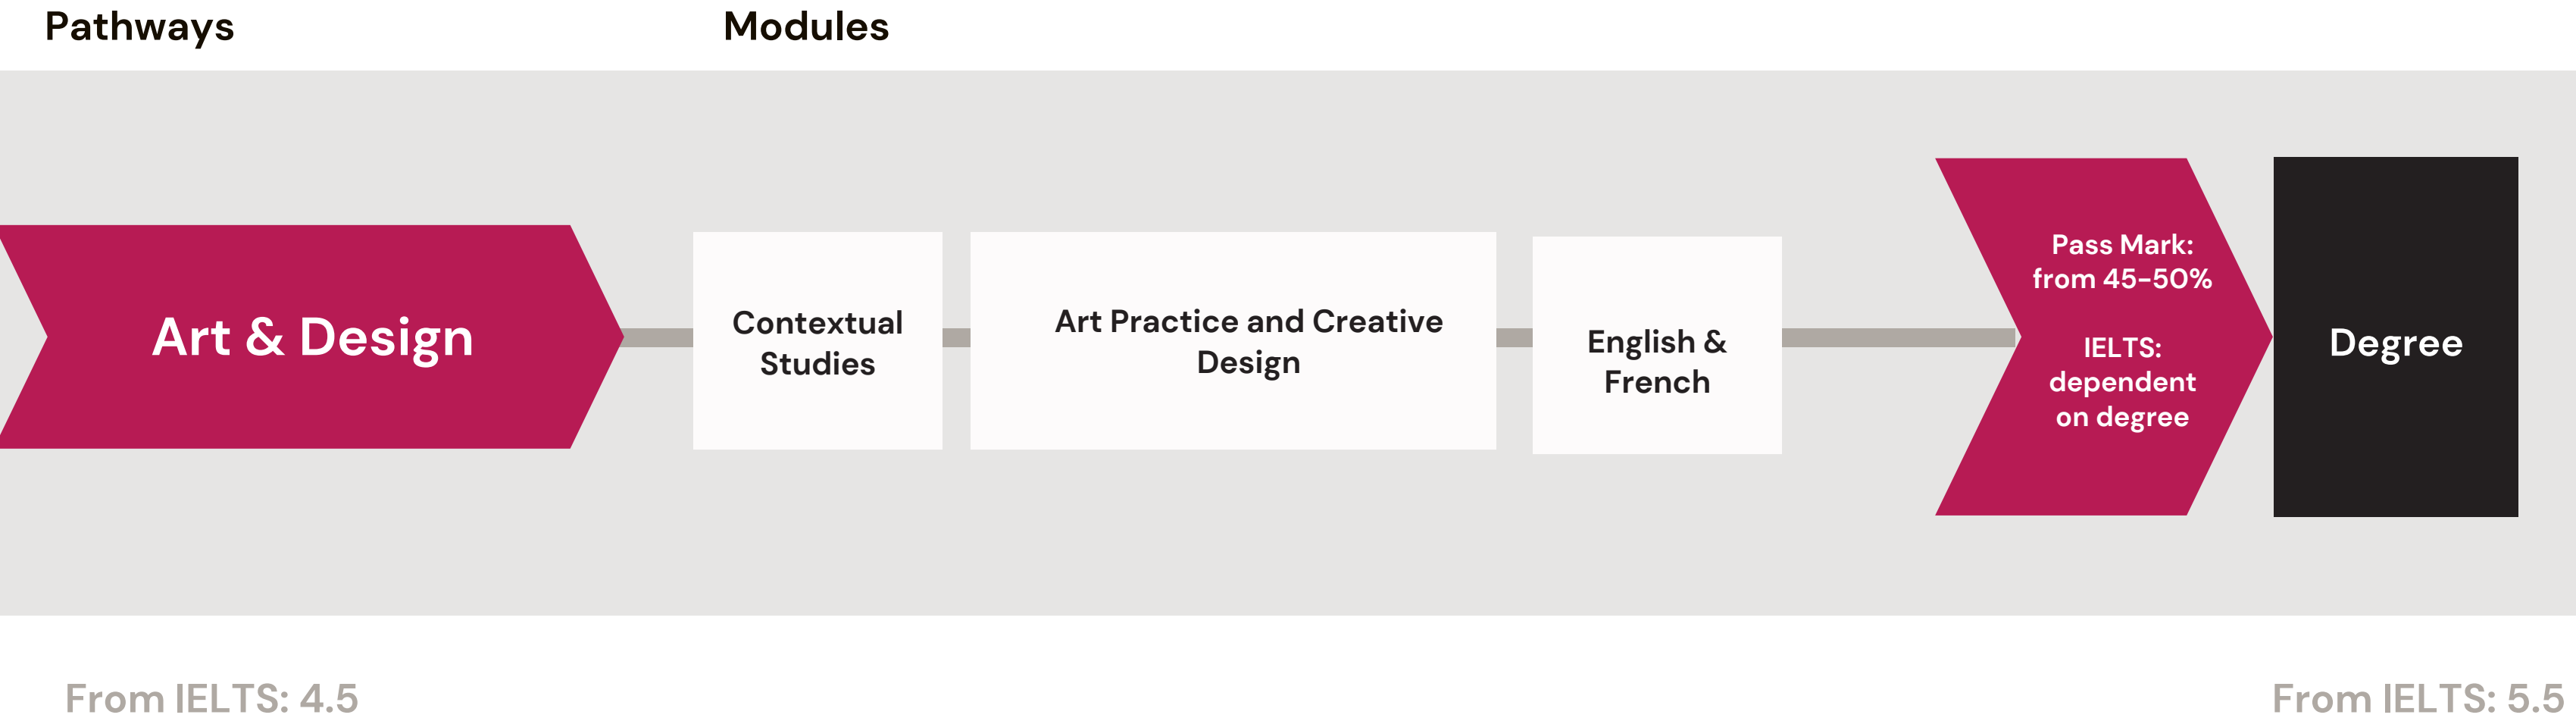

Our programmes at OnCampus Paris are designed for international students who do not meet the requirements for direct entry to study at our partner universities. OnCampus Paris offers guaranteed progression to a range of degrees at KEDGE Business School and LISAA School of Art, on successful completion of our Foundation programmes.
